

The Franchi Company – that produces shotguns and hunting rifles famous in around the world - successfully creates the Franchi Food Academy which combines two passions that wisely blend in a book: game and good food.

“It is a vision of cooking aimed at enhancing game meat as a healthy raw material with major nutritional properties, through tantalizing recipes and with the pleasure of tasting them together. It is the desire to spread a new culinary culture free of taboos, promoting the quality of raw materials, the importance of the game meat chain, the correct treatment of meat to enhance its unmistakable flavor. And above all it is a network of chefs and enthusiasts from all over the world, who surprise us with their creations and, through original and innovative recipes, share their corner of the world and their idea of cooking with us. This book offers fifty-two recipes, one for each weekend to be enjoyed in company, transporting us on an incredible culinary journey in which to savor, step by step, particular flavors and combinations.

What are we waiting for? Apron on and burning stove... off we go! “
